

FRACTORA FACIAL: EXTRA TV

November 8, 2013

ExtraTV features Fractora RF: the new treatment celebs use to get red carpet ready

Going under the knife is no longer a requirement for looking like a star. Celebrity plastic surgeon, Dr. Raj Kanodia show off his new beauty weapon in the war on wrinkles.

Fractora RF utilizes radio frequency energy to even out the face, jowls, and neck area. Improvement of skin elasticity, wrinkle reduction, and skin tone can be seen after just one

treatment. Dr. Kanodia's patient, Lori, affirms that Fractora has taken years off her face. Fractora was a perfect non-invasive treatment to help tighten her skin and sweep away signs of aging.

(Extra TV featured Fractora during sweeps week - reaching a viewership over 1 million)
